

Annual Report 2022-2023

MUKTI FOUNDATION

Snehi Niwas 818/2502,

Bank colony,

**Gobindeswar Road, Old Town,
Bhubaneswar.odisha 751002**

Outcomes against MUKTI FOUNDATION's Objectives

Objective	Outcome/ Output
To help maintain unity and promote co-operation among the group (drug users) within different localities within the district of Odisha	Program Manager's field work -PM has met with numerous DUs – networking, meeting family members, giving info on HIV&AIDS and other health issues. Also contact with ex-residents of DDC facing relapse issues
To develop a sense of culture, and moral and physical qualities among the drug users in general	54 DDC residents who have completed the program remain drug free (from 08 09months) Field work supports DUs and enhances family relationships
To participate and to avail of various programs of central and state Government for development of mental attitude of drug users	Program Manager attends all possible forums –e.g. Family Planning Association Of India, Advocacy Camps.
To take adequate steps for creating awareness and for the prevention of HIV/AIDS, Hepatitis and other diseases, which are dangerous to humans but affect drug users especially	108 attendances at DDC on HIV & AIDS – awareness and preventative behaviors (each resident attends 2 session)
To work with the women of the slum areas in order to create awareness for their rights and obligations etc.	3 SHGs in Saliya Sahi & Dhirakuti Basti for women creating awareness 30 women attending SHGs to seed livelihood ventures
To assist in the implementation of various schemes along with specified Govt agencies for the proper rehabilitation for drug users in the locality	47/104 (45%) DDC residents streamed via Targeted Intervention Program 28/47 (60%) TIP who remained drug free

Objective	Outcome/ Output
To create awareness against drug abuse and prevent the future generation from getting addicted to drugs	3 community awareness programs participated in World Vision and Family Planning India 2 Exposures through media (2 x TV items, Newspaper?)
To provide training to peer educators, youth club members, PRI members and other members of society for the prevention of drug and alcohol abuse	3 DDC ex-residents gaining employment: LEPR Peer Educators What does PRI stand for?
To assist family members and significant others of drug users in dealing with the effect of addiction and to provide emotional and moral support to them	10 families attending the monthly family day (each month) 30 Cumulative attendances since beginning of program in June (June to Mar = 10 months)

BARRIERS AND CHALLENGES

The levels of discrimination and ostracizing by families of users of Alcohol and other drugs remains a key barrier to overcome through more efforts to reach this group and effectively communicate the key messages and approaches that MUKTI FOUNDATION stands for.

Wider community acceptance also remains a huge challenge for individuals who are trying to remain drug free and who need some special supports. This extends to the work place where again; intolerance and judgmental attitudes can lead to loss of opportunity and access to livelihood for drug users

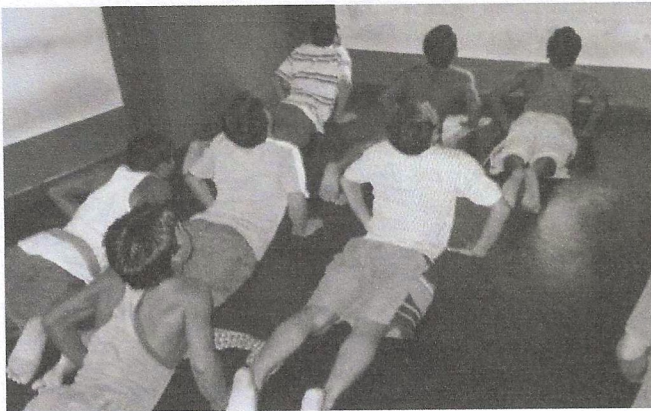

Acknowledgement

MUKTI FOUNDATION would like in particular to acknowledge the passion and dedication of its staff, who have themselves had to work hard to become drug free and remain drug free. Without these special people and the life experience they bring to the work, MUKTI FOUNDATION would find its work impossible to do.

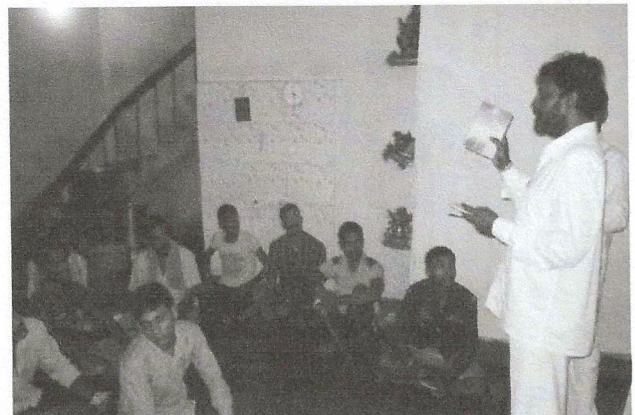

Our activities could not have been completed without the valuable support and kind words of encouragement of the following that visited our project area and also supported us with resources time and again:

MILE STONES OF TRUST

Our management chairman Priyaranjan Dash. & Mrs. Sushila Dash started the deaddiction centre in 2014 which is location in a place where the role of poor people are living and free services are needed. Hence they began Mukti foundation in 2014 after prolonged discussion and sacrifice. Message from trustee

We have successfully finished 5th year batch of GNM and paramedical course. started redemption recovery care three year, a deaddiction center for alcoholic and substance abuse for women and men.
